

## Solution Overview

The CPR<sup>3</sup> solution is a fully managed purpose-driven data device that includes voice activation. The CPR<sup>3</sup> is secure and custom-built for organizations to improve communication and provide access to key resources at the tap of an icon. The CPR<sup>3</sup> software allows program administrators to remotely to add, update, or remove apps for communication, reporting, billing, and other healthcare resources. The core of this solution is a smart phone outfitted with a rugged case and screen protector that provides unlimited communication and unlimited internet access for residents and staff. The CPR<sup>3</sup> is a turn-key solution that comes with white glove setup and ongoing support.

## Solution Benefit

Reliable, expedient, and secured communication is critical in the healthcare industry. Healthcare professionals need an easy way to share information between each other to ensure the best care is provided for their patients. Premier's CPR<sup>3</sup> solution allows healthcare workers an easy way to access valuable resources at their fingertips. Care coordination can be managed via the CPR<sup>3</sup> by streamlining communication between providers.
