

Solution Overview

The CPR³ solution is a fully managed purpose-driven data device that includes voice activation. The CPR³ empowers juveniles with the resources to reacclimate themselves into society and become productive and successful citizens. Our Juvenile Justice solution bridges the gaps, helps pave the way to societal success, and reduces recidivism by connecting them to the resources to be successful. The CPR³ Software & Management Portal allows program administrators to remotely add, update, or remove apps for community programs, legal, health, nutrition, and other resources. The CPR³ is a turn-key solution that includes white glove setup and ongoing support.

Solution Benefit

Recidivism is the symptom of a more complicated issue that requires a solution to address all components. Our CPR³ Juvenile Justice solution provides support, helps prevent re-entry, and facilitates easier access to necessary youth services. The most critical element of societal success is communication. The CPR³ enhances communication with unlimited talk and text, offers unlimited connectivity, and promotes social engagement. The elevated connectivity and communication provided by the CPR³ solution offer access to resources that augments educational training, vocational training, and re-acclimation into society. The solution is presented in a controlled environment with only the resources needed to be successful.

Qualifying Questions

- What is the follow-up process once a child leaves the program?
- What is the primary challenge when a child leaves the program?
- What support services are currently offered?
- How are your support programs implemented?
- What are your repeat offender (recidivism) rates?
- What would be the impact of providing connectivity & access to resources in the palm of their hands?

Why Do We Win?

- Over 28 years of experience providing solutions that enhance social engagement, & educational success
