

## Solution Overview

The CPR<sup>3</sup> solution enhances campus safety by helping administrators and staff connect to critical resources, anytime, anywhere. It also improves response time, increases critical communication, and provides access to resources and internet connectivity. The added feature of ES Chat (Enterprise Secure Chat) affords improved functionality with robust attributes that support and facilitate reliable mission-critical communication. This innovative enterprise application (ES Chat) provides Push-To-Talk (PTT) service with 99.999% mission-critical service availability.

## Solution Benefit

Our solution at its core, provides improved response time, increased safety, enhanced communication, voice privacy, and connectivity that is available whenever and wherever it is needed. All of these features and benefits are available in one all-inclusive handheld device. The CPR<sup>3</sup> solution featuring ES Chat affords secure Push-To-Talk communication on a 1:1, Ad hoc, and Group basis. It also provides unlimited talk and text, with unlimited internet access. The ES Chat feature provides secure communication that is perfectly suited for school administrators and staff members, which greatly enhances safety, especially in emergencies. Our CPR<sup>3</sup> K-12 Administration solution is a turn-key solution that includes a Premier's White-Glove service and set up as well as ongoing support.

## CPR<sup>3</sup> Connecting People to Resources

1. **Hand-Held, Body-Worn Computer**
2. **Unlimited Communication (voice, data, text & hotspot)**
