

Premier Library Check Out Program

- Pintrac MDM
- Plastic Carrying Case
- Custom Labels
- Franklin T10 Hotspot

Pintrac’s MDM allows libraries and educational institutions within their organizations to be able to remotely manage and control multiple devices within organizations and groups.

Far too many people don’t have reliable access to the Internet

By making it easy and affordable for libraries and schools to keep their communities and students connected, we’re helping people make the leap into a better life with better access both in school and at home. We believe mobile access holds the power to close this gap by giving people the tools they need to plug into the 21st century anytime, anywhere.

- Custom security settings
- Enable and disable hardware features
- Content filtering integration for safe internet
- Time of day control
- Interactive dashboards for IT admins
- Data usage reporting

Children's Internet Protection Act (CIPA) compliant
