

Solution Overview

ConnectED Bus Crosswalk K-12 is the GPS and student tracking component of our comprehensive ConnectED Bus solution. The multi-functional rugged tablet with mount provides a hands-free solution for turn-by-turn directions. It also displays the name and picture of the student boarding or deboarding at each stop and allows for digital entry of district required forms. Web-based software allows transportation directors to re-route buses due to accidents or road closures from a PC or mobile device.

- Student Tracking & App

- Turn-by-Turn Directions
- Field Trip Management
- Pre & Post Trip Inspections
- SIS Integration

Solution Benefit

ConnectED Bus Crosswalk K-12 provides the necessary tools to safeguard students and improve operational efficiencies. The free app helps students and parents track the bus and prepare for its arrival. Student tracking reduces the occurrences of “missing” children. Turn-by-turn directions help new or substitute drivers navigate routes and stops. Digital records streamline processes and ensure accuracy, saving both time and money.

Qualifying Questions

- How often do you get phone calls about missing children & how long does it take to locate them?
- How often do you have substitute or new drivers?
- How are you currently preparing state & federally mandated reports?
- How do you currently manage requests for field trips or extracurricular activities?

Why Do We Win?

- All-inclusive solution with GPS, student tracking, routing, field trip management, turn-by-turn directions & parent app
- Simplification of state & federal reporting
- Real-time information regarding whether students are on/off the bus
- Instantaneous route updates
