ConnectED Bus
Communication

PREMIER WIRELESS™

Premier's ConnectED Bus technology, combined with our smartphones, rugged phones, tablets, and devices with Push-To-Talk functionality, provides enhanced situational awareness and improves response times through communication continuity.

Push-to-Talk Devices

Provide the most reliable and efficient communications for drivers, dispatch, administration & first responders.

- Instantly connects for quick response
- Connect 1-to-1 or 1-to-many
- Includes palm mic for drivers
- Nationwide coverage

Cellular Phones & Tablets

Android, Apple, and rugged devices meet usability requirements, ensuring district-wide communications.

- Enable electronic forms, workforce efficiency & improved communication
- Open records compliant

Mobile Device Management

Easily monitor and manage all of your devices from one remote dashboard.

- Enable greater compliance & control of your data & information
