CONNECTED BUS

Connectivity

School Bus Wi-Fi

- Provide Wi-Fi on your school buses for your students to safely & securely complete & submit their assignments on time
- Allow students to maximize travel time for daily commutes or extracurricular activities
- Improve grades & student performance
- Increase student engagement & satisfaction
- Create access & equity for all
- Includes secure student sign-on
- Education-grade content filtering included
- Nationwide installation & portable kits are available

Real-Time Camera Access

- Eliminate waiting for the bus to return to the depot - gain real-time remote access to the cameras and DVRs on board
- Immediately assess emergencies
- Reduce disruptive incidents on the bus
- Increase student & driver accountability
- Reduce labor costs to pull hard drives

Crosswalk K-12

Student Tracking & Parent App

- Prevent students from boarding the wrong bus, being dropped at the wrong stop, or getting left behind at the end of the route
- Provide live student status on parent app
- Easy student information system integration
- Simplify contact tracing processes

GPS & Routing

- Know the location of every bus, where they've been, & the speeds they've traveled
- Create new or integrate existing routes
- Easily generate state & federal reports
- Reduce operating costs & improve efficiency

Driver Tools for Safety & Success

- Share the current route, bus stop, & names of students assigned to each stop with bus drivers via a live interactive map
- Turn-by-turn driving directions
- Avoid wrong bus & wrong stop errors
- Electronic pre & post-trip inspections

Communication

Push-to-Talk Devices

- Provide the most reliable & efficient communications for drivers, dispatch, administration & first responders
- Instantly connects for quick response
- Connect one-to-one or one-to-many
- Includes palm mic for bus drivers
- Nationwide coverage

Cellular Phones & Tablets

- Android, Apple, & rugged devices to meet usability requirements while ensuring district-wide communications
- Enable electronic forms, workforce efficiency & improved communication
- Open records compliant

Mobile Device Management

- Easily monitor & manage all of your devices from one remote dashboard
- Enable greater compliance & control of your data & information
