

Chromebook & Laptop Warranty Program

EXTEND THE LIFE OF YOUR NEW & EXISTING DEVICES WITHOUT BREAKING YOUR BUDGET

Purpose-Built for K-12

During the pandemic, many school districts implemented 1:1 device programs—backed by temporary funding. Covid funding is gone, but the need for reliable student technology hasn't changed. With tighter budgets and limited options for large-scale replacements, extending the life of your existing devices is more important than ever.

What We Offer:

- **Extended Warranties** for new and existing Chromebooks, laptops and tablets
- **Coverage Options** from 1 to 4 years
- **Unlimited Claims** for schools
- **Accidental Damage Protection** (drops, spills, & cracked screens)
- **\$0 Deductibles**
- **Optional Lost/Stolen Coverage Available**

Why This Matters Now:

- **Maximize your current investment**—don't replace devices, protect them
- **Avoid unplanned repair costs** and reduce downtime
- **Stretch your tech budget** during periods of financial shortfall
- **Maintain device equity** without cutting corners on student access

Flexible & Scalable

Whether you're protecting a few hundred devices or managing a district-wide fleet, Premier Wireless provides **custom warranty solutions** tailored to your needs, timeline, and budget. You choose the coverage duration—**1, 2, 3, or 4 years**—based on the remaining life and usage of your devices.

Get Started Today

Contact us for a quote or to learn how easy it is to add extended warranties to your existing Chromebook fleet.

Protect your investment. Extend device life. Preserve student access.
